

CORPORATE CREATIVITY RETREAT

"Creativity and innovation are about finding unexpected solutions to obvious problems, or finding obvious solutions to unexpected problems"

~Rei Inamoto, chief creative officer at AKQA

Simone helps look for various ways to solve problems in an iterative cycle of experiment, study, adjust and try some more. By the time Simone is done, everyone has engaged on the journey and feels they have contributed to their success in a fun and collaborative manner."

~ Daniel Breston, Technology Leadership Coach, Advisor, Facilitator, Trainer, Qriosity

"Simone is flexible, professional and can adapt a program to suit the customers needs. We achieved outstanding results which went on to support our overall service improvement program."

~ David Lloyd, Director Technology Recruitment

We need the time out, the right environment and the guidance to reconnect with our core and move forward with confidence. It's about how we approach the way we work, live and play.

The Experience

The way we choose to see ourselves can limit who we can be. We are more capable than we give ourselves credit. Surprise yourself.

Perfect for any corporate group, team building and the development of individuals, designed by a recognised Top 25 Industry Thought Leader who also happens to be an artist! Individually tailored to meet dynamically different groups, therefore the focus and combination of activities of the retreat program will differ.

Expand your problem solving and critical thinking skills through creative art; solidify vision and mission strategies through visual exploration; improve relationship interaction and communication through collaborative painting and more. Simone's workshops and guidance provide you the perfect opportunity to experiment with techniques and reveal different ways of seeing your work.

Creative Solutions & Energetic Contributions.

Come away energised and resilient to constant change and demands.

Book out a current scheduled retreat or contact Simone to arrange a specific date period.
